* "Capacity" refers to the number of people fitting into the tent, whilst "Sleeping space" gives you an indication whether you will be lying very close or have some/ a lot of space when using the tent for this amount of people. When using a tent for the maximum number of sleepers, you might not have a lot of space for your equipment, or your equipment could reduce your sleeping space. If you do have lots of equipment,

** All tents come complete and ready for use. A carry bag, pole/stake bags and owner's manual are included. All tents come with a 3 year warranty against material and manufacturing defects.
